ONLINE OPEN CLINICAL DAY

CHILD AND FAMILY HEALTH:
CREATING VITALITY
FRIDAY 16 OCTOBER 2020

The Health and Wellbeing of young people has never been more important. In the next NCIM Open Clinical Day, we will be exploring how the Integrative Medicine model can support the activation of our body's natural vitality.

We are delighted to welcome a range of speakers including Dr Hilary McClafferty, Integrative Paediatrician from the USA, and Professor Julian Hamilton-Shield from the University of Bristol. We will present a balance of conventional, lifestyle and holistic perspectives, as we explore the important ingredients in creating child health and what might be some of the barriers facing society.

NCIM supports a growing movement for change in healthcare, combining conventional, lifestyle and holistic approaches to improve health and wellbeing.

NCIM is a Community Interest Company (08529099)
