Masterclass with Geoff Johnson, 27 February 2021, online
‘Seven Cases from Seven Kingdoms’

At Level 5, the level of the source, the strange world of the SRP crystallises in our consultation rooms. We observe the sickness communicating with us. The language is not human, that is why it is strange. We will follow this sensation language, on a journey through the miasms, levels, evolutionary systems and delusions of seven patients, each from a different kingdom of nature.

Geoff Johnson studied veterinary medicine at Cambridge University and is qualified as a vet, veterinary homeopath and as a professional homeopath. This combined experience supporting both animals and humans with homeopathy is part of the magic of Geoff's teaching.
